ADAMS COUNTY ARES TRAINING NET PREAMBLE

Attention all stations, attention all stations. This is (your call) calling a regular net session of the Adams County Emergency Training Net on repeater W9AWE/R on 147.63/.03. My name is (your name) and I am net control for this session. This net meets each Wednesday evening at 6:45 PM local time and is a directed net. This net is an ARES affiliated net and meets to encourage emergency preparedness and to exchange information among area amateurs.

I will begin by asking for stations with emergency or priority traffic and will take check-ins after that. When you check in, please give your name, location and if you have anything for the net. I will ask for comments after all stations have checked in.

Are there any stations with emergency or priority traffic?

      (handle all priority and emergency traffic)

Are there any stations with formal written traffic?

      (handle any remaining traffic)

Are there any stations wishing to check in?

      (list stations as they check-in on page 2)

      (go back through the list of check-ins for any comments)

I will now close this session of the Adams County Emergency Training Net on 147.030 and will move to 146.940 (or 443.900 or 147.195) and take check-ins there. I would like to thank everyone for their participation. This net will meet next week at the same time and the same frequency. I am now closing this net and returning the frequency to normal use. (Your call) is now clear.
