MADN	9	137			
MARI	1	56			
MASN	2	29			
MCDN	3	467			

If you're looking for excitement in next year's ILQP, the list above will give you some food for thought. Some counties are obviously easy to work, while others, in 2022, were impossible or extremely rare. We failed to get a commitment for CHRS and STAR, and the plans for JERS and GREE fell through due to equipment and time issues.

There were some "near misses": EDGR and WOOD were worked by ONE STATION each, and JODA by only four. Many counties were activated by only one station (often a mobile). There are lots of possibilities for an eager county-corner group!
